### DETAILED ACTION

Claims 1-15 are pending in this application.

#### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 1-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ambegaonkar et al. (US 4,891,223).

Ambegaonkar discloses a controlled release delivery coating formulation for bioactive substances. The composition comprises a bioactive core, which can be 100% active substance or could be in admixture with an inert binder or substrate (col. 7, lines 3-5). The core is has two coatings, which can control the release of the active core (col. 5, lines 23-48). The prior art does not teach the specific drug as claimed by applicant.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to employ the use any of the claimed drugs in the composition of Ambegaonkar. Column 15, lines 44-45, describe that any active substance, including but not limited to drugs, etc. is applicable for use in the present invention. Furthermore, it is the position of the examiner that the claimed drugs are drugs that are known in the prior art to be used in controlled released formulations.

***Conclusion***

2. Claims 1-15 stand rejected.
